

Humboldt County's Artisan Wines

Welcome to the wineries and vineyards of Humboldt County—a community of artisan wineries and vineyards whose passion and enthusiasm for wine is matched by the quality of their products. Humboldt is a county of diverse growing and wine making areas, from the vineyards and wineries scattered amongst the redwoods of Southern Humboldt to those winding river and forest canyons of the East county, and the wineries in the Northern County that feel the cool breezes of the Pacific Ocean. These diverse regions produce a variety of grapes ideally matched to the micro-climates and soils of these areas. Most of the vintners are happy to welcome guests and are only open by appointment, but a few are open daily.
